To Whom it may Concern:-

Dear Sir or Madam

My name is Anand Svabhava, formerly Paul Rosenberg; I am 31 years old, and am an Englishman, presently living in a Commune in Amsterdam. I recently made a Journey to Rajneeshpuram in America, where Bagwan Shree Rajneesh (my master) is at present living. It is truly an amazing experience, being a disciple of this man. I became a disciple of his around 3 years ago, and my love and devotion to him has increased and increased during this period. The celebration in Rajneeshpuram was a totally joyous affair - singing dancing, celebrating laughing loving and much festivity without the need of any artificial stimulants such as drugs or drink, but merely through our connections to Bagwan which to each Sanyassin is a personal experience. To be a Sanyassin, (disciple) of Bagwan, it is not at all necessary, that he speaks to me, or anybody at all; he has said everything anyway, over the last 7 years, everyday, in Poona India, of which many books a tapes have been published. The point is, that it is not a question of any words

between him, and myself as our relationship is beyond words. It is a wordless communion, a very wonderful fact. Since I have been with him, my creativity in many ways has grown and grown. My music has become much more matured, and I enjoy making it much more now. In fact, I feel much more positive in general these days. I live in a commune with 65 other sanyassins. These communities of sanyassins exist all over the world and we term them, 'Buddhfields' as there is a certain energy in these communities which is Baghwan's energy, which exists whenever there is a group of sanyassins together. This energy is purely 'love' energy and as we grow stronger, matured, and more open, the longer we are with Bhagwan, the more we come to feel this 'love' energy which is always available. ~~2~~

Baghwan is a very beautiful and wonderful phenomenon and I am from the depths of my being, grateful to him for being in my life.

With All Sincerity

Anand Svabhavo (Paul Rosenberg)
