

July 29, 1983

To Whom it may concern.

I am a High-School teacher since 38 years; i now work and writings of Bhagwan Shree Rajneesh, that i also used in my teaching activity, and i could watch, from my pedagogical point of view, how his influence helped so many and very different subjects to start a human growth and to find a balance in theyr lifes.

Coming to now about the imminent decision about his staying in the USA, i would like to express my passionate wish that he can have the American Nationality.
