

TO WHOM IT MAY CONCERN :

I am a disciple of Bhagwan Shree Rajneesh for five years and may say that this relationship with a living Enlightened Master has grown into the most important factor of my life.

It is not easy to describe how they happen, these subtle changes in my life, after the initiation through Bhagwan. They are not caused through ideology or teachings, it is more a fine transmission of His radiance, His humor and acceptance and His awareness, that happens while being in his presence and also while living in one of the communes created through his inspiration. The focus of all this happening is for sure Rajneeshpuram, the centre of His spiritual guidance and for me a place to go when a physical contact with Bhagwan is needed. But also here in Italy I find myself in a process, provoking more lightness, positiveness in life, more respect for my body, more care for my environment, more depth in what we may call the inner life of the soul - and I see the same and similar happening with the friends around me.

May be Bhagwan is starting a movement that already belongs to a better future of humanity and I feel a deep gratitude to be a little part of this great adventure.
