

To whom  
it may concern

I'm Bhagwan's disciple from three years.

It was long time I was looking for something or somebody that could rich me to the truth or to the deep expression of myself.

I followed that path through reading many religious books of spiritual master or through direct contact or experience of different kind religious and spiritual. Then I met Bhagwan Shree Rajneesh and immediately I felt him be the people I was looking for, and ~~the~~ He can help me in my inner seek, in this deep wish.

To become Bhagwan's disciple changed my life or more exactly my way of life.

Specially I experienced the joy to live with love.

Now I am working in my town in a fruit factory and I'm happy for Bhagwan walkship and I enjoy for His good state and I have much trust ~~for~~ ~~His~~ ~~work~~ in him and in his work.

Thank
