To Whom it May Concern,

I first learnt about Bhagwan through
His books.

I felt through His meditations that my problems and confusions
were caused by my thoughts and ego. Also I discovered that
the truth which I have been seeking for many years, existed
beyond words.

I made up my mind to live with Him in
His blissful and transcendental space. I became His disciple
on the 9th of April, 1983.

At this moment, His very existence in
silence is the most important truth and love for me.

M. Koya

Most Sincerely

Minako Koya.
