To Whom it May Concern,

I became one of Bhagwan's disciples on December 15, 1981. While reading one of Bhagwan's books, I felt as if I had been struck with a Zen stick.

I became a sannyasin because I felt that my path in life, was simply to become a drop of Bhagwan.

This piont of view means, that I believe that Bhagwan is working on people through His silence. His books, videos and tapes are used as His tools.

Faithfully yours

Takami Ikeda.
