"To whom it may concern"

My name is Swami Chidananda, my age  
30 years. I'm working in Wolfsburg, West  
Germany as a social worker and therapist

with young people.

I'm a sannyasin since 2 years. Sannyasin  
means: a disciple of Bhagwan Shree Raju.  
My teacher and master. For the first time

I met Bhagwan in Poona India, where I

listened to his discourses and was very

much touched by his presence and

immense love. I felt the incredible

wish to follow him and to become a

disciple of this man.

Bhagwan creates in Rajneeshpuram a Buddha-<sup>-i</sup> field, a place where people can grow, where a lot of good energy a lot of fun, love and clarity can be felt, so my experience I participated in some therapy programs, the main goal of these groups was to become real, to accept my feelings which I repressed for a long time. Bhagwan's teachings always mention that he wants his Sannyasins to become rooted in life and to get ready to celebrate life.

1981 Bhagwan went to Oregon USA also he became silent, what means Bhagwan communicates with all his Sannyasins from heart to heart. We call this communion Satsewa, a heart, heart communion with our religions was

My inmost experience is that although  
Bhagwan does not speak any word, I can  
feel his presence and love very intensely.

All his work is to teach us how we can be  
more and more in a state of love.

This was also the idea of the first and  
the second annual world celebration in  
Rajneeshpuram Oregon, Bhagwan called  
all his disciples all over the world to meet  
in his presence and to drink his love,  
for me an incredible peaceful experience.  
I hope Bhagwan a real great religious  
master can stay in the United States  
of America.

Your faith fully
